

Sky Halisky

Building accessible, AI-native product. Open to thoughtful product collaborations.

PORTFOLIO — 2026

An accessibility
map. A multi-agent

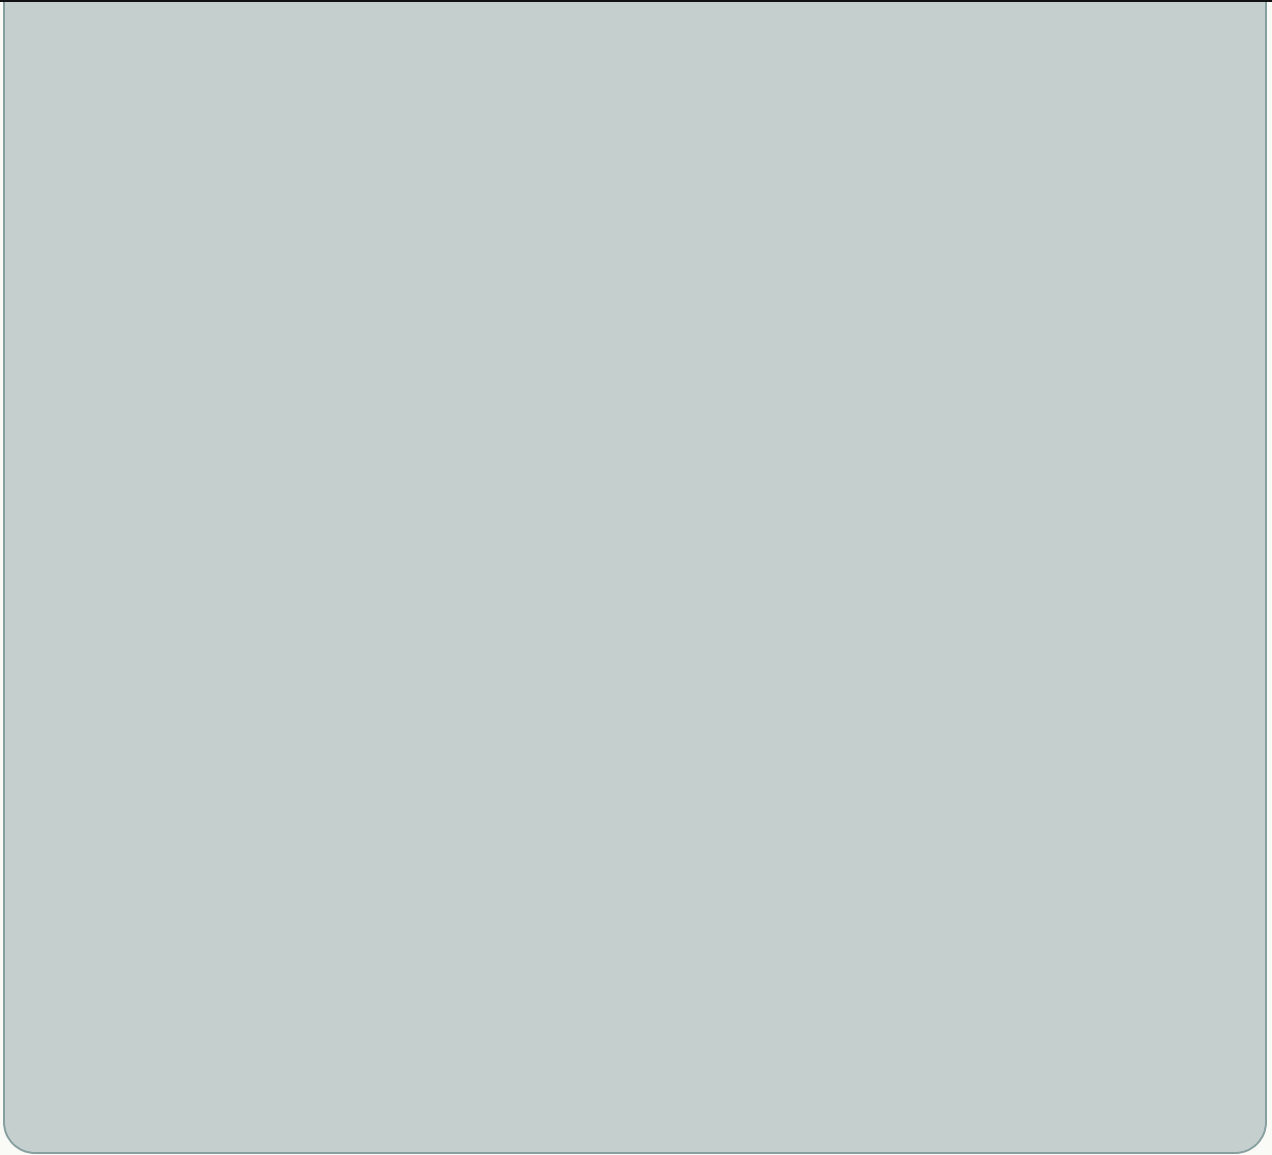

system. A web-based prompt library.

Six projects built, five live on the open web.
Accessibility first, built for everyone.

Abstract

100

the 1990s, the number of people with a mental health problem has increased in the UK (Mental Health Act 1983, 1990, 1994, 1997, 2003). The increase in the number of people with a mental health problem has led to a corresponding increase in the number of people with a mental health problem who are in contact with the criminal justice system (CJS). The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.

The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS. The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.

The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS. The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.

The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS. The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.

The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS. The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.

The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS. The increase in the number of people with a mental health problem who are in contact with the CJS has led to a corresponding increase in the number of people with a mental health problem who are in contact with the CJS.
